"Screenprinting with no screens"

MagiCut products are perfect for the application of logos, lettering, designs and numbers to almost every type of workwear, promotional or leisurewear garments and textiles. Use with traditional plotter/cutter and apply with a quality heat press.

The MagiCut process is clean, durable, simple and affordable, with no toxic inks or chemicals involved.

MagiCut makes short run production easy and profitable with the advantage of removing traditional screen and set-up costs. Make good profits from minimal investment.

Full colour images can also be printed, then precisely contour cut and applied to garments or fabrics. This process also works with the production of decals, vinyls, stickers, tattoos and films. Please refer to TheMagicTouch image transfer process.

All plotters and MagiCut Software come with a one year warranty and conform to all CE & RoHS legislation.

All products subject to stock availability. All prices exclusive of VAT and delivery. These prices are effective February 2014 and supersede any previous pricing schedule.

CUTTER/PLOTTERS

Cutter/Plotters are a great way to decorate textiles simply and affordably. They work by sending information from a computer to the cutter which moves coloured materials back and forth and allows a blade to cut the design out. The excess material is then 'weeded' by hand and the design is heat applied to the textile. Multiple colours/effects can be applied in this way.

Silhouette Cameo Plotter
£224.00
Suitable for PC or Mac. 30cm cutting width, up to 300cm cutting length. Features an optical sensor for profile cutting of full colour designs.

Complete with; USB port for direct cutting from thumb drives, storage compartment for blades/pens, manual cross cutting tool, customisable control panel, 100 free designs and cutting sheet.

Graphtec Plotter CE6000-40
£595.00 – desktop version only
Suitable for sheet or roll material up to 560mm wide - with a maximum cutting width of 375mm. Auto registration feature, USB interface, LCD display, 2MB buffer, 8 selected settings.

Graphtec Plotter CE6000-60
£1025.00 – desktop version
£1150.00 – complete with stand
603mm cutting width, auto registration feature, USB interface, LCD display, 2MB buffer, 8 selected settings. Complete with Graphtec Studio software & plug-ins for Corel Draw and Illustrator. Up to 90cm/sec cutting speed, roll or sheet feed.

The MagicArt Collection – £699.00
Royalty free artwork collection containing; 200 ready to print templates (in .cdr and .eps formats), 2000 Vector images, 20 distress patterns and 60 Fonts. CorelDraw X6.1 Graphics Suite plus the Instant Designer tool.

MagiCut Software – Version 5
£249.00
Includes all cutting, print and cut tools. Online training and support included. PC only.

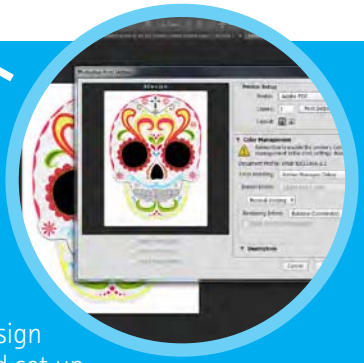
MagiCut Software – Version 6 Professional
£399.00
For clients without existing graphic design software, MagiCut 6 is the perfect solution. Inclusive of all cutting, print and cut tools plus mask function, product templates, galleries and bitmap fills. PC only.

This larger format option of combined 'Print & Cut' offers a wider range of applications utilising Eco-solvent inks.

Advantages include the ability to produce full colour transfers for garments using Soldark together with banners, signage, stickers and canvas prints all with improved outdoor durability due to the unique ink properties.

DECORATING GARMENTS WITH PRINTER CUTTERS

STEP 1



Design
and set up
your full color artwork using
your favorite graphic design
software.

STEP 2

Print
and cut
graphic onto Soldark using a
solvent or eco-solvent printer
(Mimaki, Roland, Mutoh).

STEP 3

Press the
transfer to
substrate using a heat press.
Use heat proof application tape to
transfer complex designs.

Roland VersaSTUDIO BN-20 – £4499.00

'Print & Cut' for outstanding results - resolutions of up to 1440dpi on rolls up to 515mm wide. With a print and cut width of up to 480mm.

- Power cord, USB cable, blade and holder, media holder.
- Software RIP - Roland VersaWorks.
- User's manual, set - up guide, metallic colour guide.
- Cleaning kit (fluid & swabs) replacement wiper blades, tweezers, tools.
- Windows driver to connect to CorelDraw and Adobe.
- 1 Year Bronze RolandCare.
- Print and Cut up to 480mm.
- Max media thickness: 1.0mm.
- Resolution: up to 1,440 dpi.
- Roland OnSupport.
- Includes CMYK cartridges.

Roland VersaCAMM SP-300i

'Print and Cut' for outstanding results.

CALL FOR PRICING

- CMYK – four colours with 2 printheads.
- Designed exclusively for Roland ECO-SOL MAX ink.
- Lower initial investment while providing reliable production with professional quality.
- most suitable for production 50m^2 or less per day.
- Print and digitally die-cut on one device.
- Handles media rolls up to 20kg.
- Print and Cut material up to 30"(762mm).
- Includes Roland VersaWorks RIP software.
- Roland Eco Label and Energy Star Program certified.
- Roland reliability and world-class service and support.

HEAT PRESSES

Garment decoration using MagiCut materials is best accomplished using a quality heat press.

Adkins Swing Head Manual Press

38 x 50cm platen - **£895.00**
61 x 43cm platen - **£1395.00**

Professional level, digital controller, includes 2 PTFE sheets. Optional interchangeable platens available to assist in pressing shaped items such as bags, holdalls, umbrellas etc.

15 x 15cm -	**£72.50**
20 x 20cm -	**£95.00**
25 x 25cm -	**£125.00**
30 x 30cm -	**£145.00**
Umbrella platen -	**£155.00**

Insta 201 Manual Swing Press

33 x 33cm platen - **£599.00**

Comes with standard heat platen lifetime guarantee. Perfect small format press for all A4 size transfer applications including all MagiCut and TheMagicTouch products. Includes 2 PTFE sheets.

Studio Combo Cap/Pocket Press
£595.00

Digital controller, easy to use.

Comes with curved (15 x 8cm) element for caps plus a flat element (15 x 9cm) perfect for pockets, sleeves, notebooks and phone cases.

Swing Head Pneumatic Presses

Automatic action to reduce fatigue within a production environment. Use in conjunction with recommended quiet air compressor options. Includes 2 PTFE sheets.

Beta Single Head
37 x 50cm platen – £1695.00

Beta Omega Twin Head
37 x 50cm platen – £3200.00

25 litre Single Engine Quiet Compressor – £345.00

50 litre Twin Engine Quiet Compressor – £545.00

50 litre Oil Free Quiet Compressor – £995.00

Compressor oil – £25.00 per 500ml

Unique PU Flex with the advantage of no pre-press required, warm or cold peel, combined with reduced application time of 3 seconds at 160°C. 15 standard colours and 5 neon options.

Lower tack adhesive backing for easy weeding and application. Suitable for cotton, polyester and mixed blends. Washable to 60°C.

For polyester and performance fabrics apply 123 Flex as low as 120° for 20 seconds and cold peel to reduce scorching or press marks.

PREMIUM STRETCH FLEX

This highly stretchable flex can be cut with all traditional plotter/cutters. After weeding the cut flex apply with heat transfer press. Washable at 60°C and suitable for dry cleaning. Perfect for all types of sports performance and work wear. Not suitable for nylon or textiles with hydrophobic coating.

For best results we recommend a 2 second after press.

The raw materials are ecologically inert; do not contain PVC, plasticisers or heavy metals (in accordance with Oeko-Tex standard 100 Class 1).

reflectra®

The ultimate 'Flash Effect' for garment & textile decoration.
Available in two versions for plotter and embroidery processes.

Plotfoil Processing

Sheet size 320 x 480mm

How to use it...

reflectra® Plotfoil is pre-laminated with a self-adhesive tape, the foil is fed into the plotter with the reflective side down. Therefore the vector file has to be mirrored before cutting.

reflectra® Plotfoil is easy to cut with all common plotters. When using our product, your plotter blade won't lose its sharpness as quickly as with other reflective foils.

Even the smallest designs can be plotted with ease. After weeding, place the design on the garment, cover with a Teflon sheet and press at 165-185°C with medium pressure for 15 seconds. Peel the carrier warm or cold, preferably in running direction of the fabric.

We recommend that you give the transfer a 5-second-repress. For best results, make sure to do a test run!

Stitchfoil Processing

Sheet size 320 x 480mm

How to use it...

reflectra® Stitchfoil can be used as an appliqué in most embroidery and sewing machines.

- First remove the protection on the back of the foil.
- The design can be fixed with a simple running stitch and a thin satin stitch
- After stitching, unwanted foil parts can be removed by hand or weeding tool.
- Now the reflectra® Stitchfoil can be permanently fixed on the textile with a heat transfer press at 165-185°C with medium pressure for 15 seconds. Please cover the Stitchfoil with a PTFE sheet before transferring.

Plotfoil/Stitchfoil 'Sensation Effect' - Sheet size 320 x 480mm

Sensation is almost transparent in normal light, but reflects brightly when catching direct light or flashes from cameras/ smart phones. Sensation can be applied over selected existing transfers - perfect for adding extra dimensions to colour designs and hidden messages. The effects are stunning!

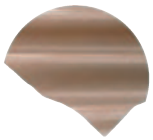
ACCESSORIES

Heat Tape –
£12.00 per roll



PTFE Sheets 38 x 50cm –
£7.00 each

Kimble Gun –
£15.00 each
To attach instructions/offers to garments.

Additional Needles: £4.00 each
Additional Tags (1000): £7.00 per pack

Paper Cutting Kit –
£75.00 each
A3 Paper trimmer (extra blade and 4 cutting strips), cutting mat (45 x 60cm) and metal ruler (60cm)

Pro-Roller –
£125.00 each
The Pro-Roller is perfect for applying application tape to Soldark - or for signage applications. Use with Pro-Roller 12" wide x 50 metre roll of tape.

Pro-Roller Tape –
£46.00 each
12" x 50m of Flex Tape for Pro Roller. Excellent for Soldark application.

T-Shirt Folder –
£15.00 each
For convenient and efficient folding.

Weeding Tool –
£4.99 each
To assist in all MagiCut weeding applications.

Cutting Strips
Graphtec CE5000-60 - £27.00
Graphtec CE6000-60 - £33.00

Economy Blade Pack –
£39.00 per pack
Pack of 5 economy 0.9mm blades suitable for Graphtec CE3000, CE5000 or CE6000.

Super Steel Blade –
£34.50 each
Champhered super steel 0.9mm blade for Graphtec plotters.

Blade Kit –
£12.00 each
Suitable for Silhouette Cameo/Craft Robo cutting plotters.

Carrier Sheets
For Cameo / Craft Robo - £12.00
For CE5000/6000 - £24.00

TRAINING AND DEMONSTRATIONS

The world of image transfer is constantly changing, offering a wider variety of printing methods and options than ever before. The good news is that we're here to help make sense of it all - so why not take advantage of a visit to our training and demonstration facilities at our Dunstable HQ?

With easy access via car (M1 junction 11), train (Leagrave Station) or plane (Luton Airport) - visiting us is simple. Please contact sales on **01582 671444** or email **sales@themagictouch.co.uk** to arrange a suitable day.

The MagiCut range can be cut with all current plotters.

The chart (below) details recommended instructions for; cotton, cotton/polyester mixture and polyester/acrylic mixtures. We recommend using a standard 45º blade. After weeding the cut material is transferred by heat press. After peeling transfer we recommend re-pressing for another 2 seconds under the same parameters.

Please note: overlaying of certain materials is not recommended, please conduct a press and wash test. Refer to colours shown as a guide only. For complete process instructions and terms & conditions please visit: **www.themagictouch.co.uk**

Cutting Chart

	Cut Pressure			Cutting Speed
